Regular papers

Induction of hepatocyte proliferation after partial hepatectomy is accompanied by a markedly reduced expression of phosphatidylethanolamine *N*-methyltransferase-2
M. Houweling, Z. Cui, L. Tessitore and D.E. Vance (Canada, Italy) 1

Inverse correlation between expression of phosphatidylethanolamine *N*-methyltransferase-2 and growth rate of perinatal rat livers
Z. Cui, Y.-J. Shen and D.E. Vance (Canada) 10

Effect of dietary omega-3 eicosapentaenoic acid supplements on cholesteryl ester transfer from HDL in cholesterol-fed rabbits
M. Sugano, N. Makino and T. Yanaga (Japan) 17

Nucleotide sequence of human alkyl-dihydroxyacetonephosphate synthase cDNA reveals the presence of a peroxisomal targeting signal 2
E.C.J.M. De Vet, B.T.E. Van den Broek and H. Van den Bosch (The Netherlands) 25

Tumour growth modifies intravascular polyamine transport by plasma lipoproteins in the mouse
V. Catros-Quemener, G. Leray, J.-P. Moulinoux, R. Havouis, J.-D. De Certaines and J. Chapman (France) 30

Fatty alcohol synthesis accompanied with chain elongation in liver peroxisomes
H. Hayashi and A. Sato (Japan) 38

HDL_3-signalling in $HepG_2$ cells involves glycosylphospatidylinositol-anchored proteins
F. Nazih-Sanderson, G. Pinchon, S. Nion, J.-C. Fruchart and C. Delbart (France) 45

Diffusible melanin-related metabolites are potent inhibitors of lipid peroxidation
S. Memoli, A. Napolitano, M. D'Ischia, G. Misuraca, A. Palumbo and G. Prota (Italy) 61

Isolation of ceramide fractions from human stratum corneum lipid extracts by high-performance liquid chromatography
T. Gildenast and J. Lasch (Germany) 69

Fatty acid binding proteins reduce 15-lipoxygenase-induced oxygenation of linoleic acid and arachidonic acid
B.A. Ek, D.P. Cistola, J.A. Hamilton, T.L. Kaduce and A.A. Spector (USA, Sweden) 75

On the mechanism of lysophospholipase activity of secretory phospholipase A_2 (EC 3.1.1.4): deacylation of monoacylphosphoglycerides by intrinsic *sn*-1 specificity and pH-dependent acyl migration in combination with *sn*-2 specificity
H. Kunze, E. Bohn and H. Eibl (Germany) 86

Glycerolipid metabolizing enzymes in rat ventricle and in cardiac myocytes
E.M.S. Swanton and E.D. Saggerson (UK) 93

Regular section

Information for Contributors *vii*

Rapid report

Immunological identification of cholesterol ester hydrolase in the steroidogenic tissues, adrenal glands and testis
T.G. Lee, Y.H. Lee, J.H. Kim, H.S. Kim, P.-G. Suh and S.H. Ryu (South Korea) 103

Regular papers

Discovery of 5R-lipoxygenase activity in oocytes of the surf clam, *Spisula solidissima*
T. Hada, L.L. Swift and A.R. Brash (USA) 109

Regulation of platelet-activating factor (PAF) biosynthesis via coenzyme A-independent transacylase in the macrophage cell line IC-21 stimulated with lipopolysaccharide
S.I. Svetlov, H. Liu, W. Chao and M.S. Olson (USA) 120

Structural organization of lipid phase and protein-lipid interface in apolipoprotein-phospholipid recombinants: influence of cholesterol
A.D. Dergunov, J. Taveirne, B. Vanloo, H. Caster and M. Rosseneu (Russia, Belgium) 131

In vivo metabolism of 24*R*,25-dihydroxyvitamin D_3: structure of its major bile metabolite
A. Shimoyamada, S. Tomiyama, M. Shimizu, K. Yamamoto, S. Kunii and S. Yamada (Japan) 147

A thermodynamic analysis of the partitioning of cholesterol and related compounds between trioleoylglycerol and egg phosphatidylcholine bilayers
H. Sandermann Jr., G.H. Addona and K.W. Miller (Germany) 158

Acyl-CoA binding protein (ACBP) regulates acyl-CoA:cholesterol acyltransferase (ACAT) in human mononuclear phagocytes
C. Kerkhoff, M. Beuck, J. Threige-Rasmussen, F. Spener, J. Knudsen and G. Schmitz (Germany, Denmark) 163

Evidence that 85 kDa phospholipase A_2 is not linked to CoA-independent transacylase-mediated production of platelet-activating factor in human monocytes
J.D. Winkler, B.J. Bolognese, A.K. Roshak, C.-M. Sung and L.A. Marshall (USA) 173

Bacterial expression and characterization of human pancreatic phospholipase A_2
S.K. Han, B.-I. Lee and W. Cho (USA) 185

Group II phospholipases A_2 are indirectly cytolytic in the presence of exogenous phospholipid
P. Vadas (Canada) 193

Effect of hyperoxia on the composition of the alveolar surfactant and the turnover of surfactant phospholipids, cholesterol, plasmalogens and vitamin E
A. Tölle, I. Kolleck, M. Schlame, R. Wauer, P.A. Stevens and B. Rüstow (Germany) 198

Erratum

Erratum to 'Apoptosis is associated with an increase in saturated fatty acid containing phospholipids in the neuronal cell line, HN2-5' [Biochim. Biophys. Acta 1304 (1996) 171–178]
J.K. Singh, A. Dasgupta, T. Adayev, S.A. Shahmehdi, D. Hammond and P. Banerjee 205

Short sequence-paper

Cloning and in vitro expression of rat lecithin: cholesterol acyltransferase
J. Wang, A.K. Gebre, R.A. Anderson and J.S. Parks (USA) 207

Regular papers

Binding and uptake of chylomicron remnants by cultured arterial smooth muscle cells from normal and Watanabe-heritable-hyperlipidemic rabbits
K.C.-W. Yu and J.C.L. Mamo (Australia) 212

Studies to determine if rat liver contains multiple chain elongating enzymes
D.L. Luthria and H. Sprecher (USA) 221

Purification and partial sequencing of the XL-I form of xenobiotic-metabolizing medium chain fatty acid:Coa ligase from bovine liver mitochondria, and its homology with the essential hypertension protein
D.A. Vessey and M. Kelley (USA) 231

Effect of growth temperature on the biosynthesis of eukaryotic lipid molecular species by the cyanobacterium *Spirulina platensis*
K. Pham Quoc and J.-P. Dubacq (France) 237

Omega-3 fatty acid intake results in a relationship between the fatty acid composition of LDL cholesterol ester and LDL cholesterol content in humans
M.T. Clandinin, A. Foxwell, Y.K. Goh, K. Layne and J.A. Jumpsen (Canada) 247

Biosynthesis of furan fatty acids (F-acids) by a marine bacterium, *Shewanella putrefaciens*
N. Shirasaka, K. Nishi and S. Shimizu (Japan) 253

Association of Lp(a) rather than integrally-bound apo(a) with triglyceride-rich lipoproteins of human subjects
C. Marcoux, S. Lussier-Cacan, J. Davignon and J.S. Cohn (Canada) 261

Mycolic acid biosynthesis: definition and targeting of the Claisen condensation step
R.E. Lee, J.W. Armour, K. Takayama, P.J. Brennan and G.S. Besra (USA) 275

Limited proteolysis of high density lipoprotein abolishes its interaction with cell-surface binding sites that promote cholesterol efflux
A.J. Mendez and J.F. Oram (USA) 285

Corrigendum

Corrigendum to 'Identification of a substance, previously shown to enhance mitogenesis of human lymphocytes, as the acetamide of *p*-aminobenzoic acid'. Biochimica et Biophysica Acta 1214 (1994) 309–316
B. Barbieri, N. Papadogiannakis, P. Eneroth, C. Hansson, P. Roepstorff and L.B. Olding (Sweden, Denmark) 300

Subsection

Rapid paper

Tyrosine phosphorylation of 100–115 kDa proteins by phosphatidic acid generated via phospholipase D activation in HL60 granulocytes
K. Ohguchi, T. Kasai and Y. Nozawa (Japan) 301

Regular paper

Docosahexaenoic acid causes accumulation of free arachidonic acid in rat pineal gland and hippocampus to form hepoxilins from both substrates
D. Reynaud and C.R. Pace-Asciak (Canada) 305

Cumulative Contents, Vol. 1346 317
